DETAILED ACTION

Status of application

Acknowledgement is made of FINAL decision on Interference request(Interference No. 105,218) on 4/12/05. As noted in paper 12, Decided that Parks not be issued a patent for the subject matter of claims 34-40 and 42-48 of Parks' involved 09/769,621 application. Therefore, Claims 34-40, 42-48 are rejected under 102(g) as follow.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(g)(1) during the course of an interference conducted under section 135 or section 291, another inventor involved therein establishes, to the extent permitted in section 104, that before such person's invention thereof the invention was made by such other inventor and not abandoned, suppressed, or concealed, or (2) before such person's invention thereof, the invention was made in this country by another inventor who had not abandoned, suppressed, or concealed it. In determining priority of invention under this subsection, there shall be considered not only the respective dates of conception and reduction to practice of the invention, but also the reasonable diligence of one who was first to conceive and last to reduce to practice, from a time prior to conception by the other.

2. Claims 34-40 and 42-48 are rejected under 35 U.S.C. (g) based upon claims 1-22 of US Patent No. 6,117,877.

Failure to present claims and/or take necessary steps for interference purposes after notification that interfering subject matter is claimed constitutes a disclaimer of the subject matter. This amounts to a concession that, as a matter of law, the patentee is

Art Unit: 1618

the first inventor in this country. See *In re Oguie*, 517 F.2d 1382, 186 USPQ 227 (CCPA 1975).

Claims 34-40 and 42-48 are properly rejected because all the claims are anticipated by Fogel's teaching (US6117877, claims 1-22) where the scope of the claims are identical or substantially same as the patented claims. Both claims in instant application and patent are directed to a method for treating a patient with painful condition of the anal region associated with muscle spasm, the method comprising providing a composition comprising an α -adrenergic blocker and applying an effective dose of the composition to the anal region.

Conclusion

1. No claim is allowed.
2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 1618

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
